

Family Group Meetings

Tuesday Evenings - 6:00 to 8:30 PM

We at Pathways believe that chemical dependency is a family illness. With that statement, we further believe the family has been affected with/by the usage and the person who is using the chemical. It can take its toll on us physically, emotionally, mentally, psychologically and spiritually. We believe it is time for the family and all concerned persons to empower themselves and begin to learn the process of recovery.

Therefore, we are encouraging you to become involved in the family program at Pathways. It is support for your client, but more importantly, it is a time for you to learn what needs to happen for you to have success in your own recovery process.

We are also available for family sessions or individuals with family members. Please let us know what your needs are. One of our staff will be contacting you also to gather social history information and to answer any questions.

Thank you so much for your help and we hope to see you on Tuesday evenings starting at 6 p.m.
